“ Ooh Nova

Auntie...

We sure had some times over the years.

Some of my most precious memories are of us all on Saturday nights dancing on the patio in Midland Texas when we were young.

As time went by we had grown apart. Each of us busy with our own lives

As we grew older we lost many of our loved ones

It makes us love and cherish the ones we still have here with us all the more.

I thank God for the last few years we could be together again

I will cherish our Sunday dinners and movie nights

Lonesome dove, the sacketts,and old texas women.

We watched them a thousand times

The card games..the dominoes..the joke telling and family stories of granny sue and sister six and brothers three

I will miss you so much auntie

“ My grandma was the best. . Theirs No Doubt that if I was spoiled at all as a child it was her doing. There's not a single memory I have of her that was not full of love, or a time where she would drop anything and everything 2 take care of me for what I needed or just to make me happy even if it was in the middle of one of her favorite John Wayne movies. I was the only thing that beat John Wayne, unless it was Hondo then I was right there in the bed watching it with her. One of my earliest memories was that everyday as a child she would take me to McDonald's whenever I wanted to get breakfast burritos . And it was every morning for the longest time . she was always level headed in crisis except for when she ran out of dr. Pepper. Which is why I really hope they stocked up on dr. Pepper in heaven because when Nova koen gets there and they don't have any of that golden s*** will hit the Pearly fan. That being said my grandmother was what you would expect from a Texas woman she was very strong opinionated and didn't care what people thought of what she said or did which gave me a lot of my strength today and because of that she will always be with me even though we lay her down to a much deserved peaceful rest as she returns to reunite with her loved ones that have long since passed. I love you Grandma and I will miss you very much and even though that I am sad today I am grateful to you one last time as your passing create another opportunity for me to grow and learn more about how precious life is Rizzo's whom I love who are still with us thank you Grandma

“ Nova was a wonderful Mother in law. I really enjoyed our conversations and TV shows we watched together. She really enjoyed the card games we always played and winning most of the time. I am going to miss her.
